

COTTAGE COLLECTION

Model CC125 Painted Black with Solid Top 11

The Cottage Collection gives you the look of a custom wood door with the strength and durability of a steel door.

Model CC225 Painted White with SQ24 Windows

Model CC225 Painted Cream with Solid Top 11

SECTIONS

- 1 3/8" and 2" thick sections are of a flat steel front and steel back design, with a wood grain embossed finish on the front. The steel is pre-finished white, using a baked-on polyester paint
- Each section is filled with 100% CFC and HCFC free polyurethane insulation using a continuous computer controlled process
- R-Value of 6.5, 9.0, 12.9, and 18.4
- Wood grain, prime finished moldings 4" x 7/16"

HARDWARE

- Heavy duty track
- Ball-bearing 2" nylon rollers
- Arctic-grade perimeter weatherstrip
- U-Shaped bottom weatherstrip

OPTIONS

- Single or sealed windows with various grilles
- Decorative hinges and handles
- Custom colors available, and can be professionally matched to any sample

WARRANTY

- Our engineered products have been designed to exceed industry standards
- Limited lifetime warranty against delaminating of the polyurethane from the steel skins of the door panel
- A one (1) year warranty against defects in material or workmanship on hardware and parts supplied

Ultra-Lite Doors is pleased to introduce our Cottage Collection Series of garage doors; a maintenance-free alternative to custom wood doors that are popular today. The Cottage Collection combines the practicality of a steel insulated door with the classic and refined design of its wood counterpart.
