

Side Coiling with Fixed Egress

SAFESCAPE® S9000 Series

The Safescape® S9000 Series fire door system is a side coiling fire and smoke rated door with one or multiple integral swing type egress doors, a complying method of egress. The side coiling design makes this product ideal for openings in rated walls where headroom clearance is limited and enables the assembly to navigate around tight curves and contoured openings.

Safescape® Model 9000 | Side Acting Fire Door with One Fixed Egress Door

When the Safescape® S9000 fire door assembly is in the activated or fully closed position, egress is still possible through a complying egress door located at the leading edge.

Incorporating conventional egress swing doors with fire exit hardware, the Safescape® S9000 fire door can easily negotiate a 3' radius curve.

S9000 with Fixed Egress: Main Components

- 1

Coil Box
- 2

Fire Door Motor Operator
- 3

Head Track
- 4

Curtain Slats
- 5

Fire Exit Hardware
- 6

Swinging Egress Door

Note: Egress doors may swing in opposite directions.

Product Features

Ratings

3-hour rated UL 10B*
Smoke & Draft labeled UL 1784

Code Compliance

CCRR-1086
ADA compliant

Egress

Single or multiple fixed complying egress doors available when required

Operation

Auto-Set® automatic resetting
Fail-Safe Design - automatic self-closing mechanism does not require power operation to self-close

Size

Widths to 80' (160' bi-parting), heights to 24'; for larger sizes and custom configurations consult the factory

Negotiates 3'-0" radius curves

Finishes

McKeon sterling gray
Powder coat
Stainless steel

*Listed under the Canadian equivalent CAN/ULC S104
